

Summer Swimmer Doorknob Hanger

Contributed by Leanne Guenther

Young children can easily make this cut and paste craft, but even pre-teens through adults will enjoy creating this cute doorknob hanger.

There's also a small hanger template for those who prefer a quicker craft -- this won't fit around a doorknob, but can hang on a drawer knob, closet knob, pushpin or the refrigerator.

Materials:

- glue or scotch tape,
- scissors,
- printer,
- paper,
- something to color with (if making the B&W paper version).

Instructions - paper version:

- Print out the template of choice and color if necessary.
- Cut out the template pieces.
- Glue the doorknob hanger together as follows:
 - Glue the arms on either side of the large body shape
 - Glue the face onto the body
 - Glue the mask onto the face
 - Glue the flippers onto the body
 - Glue the rubber tube onto the body
