

Who We Are

The Nova Scotia Boatbuilders Association supports and represents boatbuilders, those who repair, service and store boats, and industry suppliers of goods and services.

Over the past 22 years, the NSBA has built relationships with Members and Associate Members, regulators and other government partners, and various individuals and organizations. We helped establish two trades, Boat Builder and Marine Service Technician, as well as offering training opportunities and technical advice. Our team of dedicated employees works to strengthen our industry through advocacy, marketing and promotion, training and mentorship, assisting with certification, career outreach, and more.

Why join the NSBA?

A strong industry association benefits our members' individually and collectively; it helps our industry to be heard and helps us to hear our industry. Membership benefits include services we offer to members, as shown on the right, and services we do on behalf of members, such as advocacy work with government.

Our membership year runs from 01 April to 31 March.

Membership Details

Membership has grown to include 43 Members (builders or repairers of boats, resident in the Maritimes) and 54 Associate Members (suppliers of marine goods and services in North America).

NSBA offers a Basic Membership plus three additional options that companies can choose if they wish to have extra promotion.
